25X1

- 1. At 7 p.m. on 16 June 1953, three biplanes took off from Stendal-Forstel airfield, assembled to flight formation and departed in a southeasterly direction. Between 7 a.m. and 7 p.m. on 19 June, intensive air activity by II-10s was observed. On 20 June, 28 II-10s were counted at the field.
- 2. The AA gun emplacement east of the field was still occupied by six AA guns.

25X1

Comment. Stendal-Borstel airfield is believed to be occupied by one reconnaissance regiment and one ground attack regiment equipped with a total of 70 Il-los. As part of the aircraft is parked in the hangar, the exact number available cannot be identified. The AA gun emplacement was reported previously. The guns are 37-rms.
